JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

Nature of operations — Founded in 1951, Jack in the Box Inc. (the “Company”) operates and franchises Jack in the Box® quick-service restaurants and Qdoba Mexican Eats® (“Qdoba”) fast-casual restaurants. The following table summarizes the number of restaurants as of the end of each period:

	April 10, 2016	April 12, 2015
Jack in the Box:		
Company-operated	413	412
Franchise	1,838	1,836
Total system	2,251	2,248
Qdoba:		
Company-operated	338	310
Franchise	345	334
Total system	683	644

References to the Company throughout these Notes to Condensed Consolidated Financial Statements are made using the first person notations of “we,” “us” and “our.”

Basis of presentation — The accompanying condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles and the rules and regulations of the Securities and Exchange Commission (“SEC”). During fiscal 2012, we entered into an agreement to outsource our Jack in the Box distribution business. In the third quarter of fiscal 2013, we closed 62 Qdoba restaurants (the “2013 Qdoba Closures”) as part of a comprehensive Qdoba market performance review. The results of operations for our distribution business and for the 2013 Qdoba Closures are reported as discontinued operations for all periods presented. Refer to Note 2, *Discontinued Operations*, for additional information. Unless otherwise noted, amounts and disclosures throughout these Notes to Condensed Consolidated Financial Statements relate to our continuing operations. In our opinion, all adjustments considered necessary for a fair presentation of financial condition and results of operations for these interim periods have been included. Operating results for one interim period are not necessarily indicative of the results for any other interim period or for the full year.

These financial statements should be read in conjunction with the consolidated financial statements and related notes contained in our Annual Report on Form 10-K for the fiscal year ended September 27, 2015 (“2015 Form 10-K”). The accounting policies used in preparing these condensed consolidated financial statements are the same as those described in our 2015 Form 10-K with the exception of a new accounting pronouncement adopted in fiscal 2016 which is described below.

Principles of consolidation — The condensed consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and the accounts of any variable interest entities (“VIEs”) where we are deemed the primary beneficiary. All significant intercompany accounts and transactions are eliminated. The financial results and position of our VIE are immaterial to our condensed consolidated financial statements.

Reclassifications and adjustments — Certain prior year amounts in the condensed consolidated financial statements have been reclassified to conform to the fiscal 2016 presentation.

In our 2015 Form 10-K, on our consolidated statements of earnings, we began to separately state our franchise revenues derived from rentals and those derived from royalties and other. To provide clarity, we additionally have separately stated the associated rental expense, and depreciation and amortization related to the rental income received from franchisees. For comparison purposes, we have reclassified prior year franchise revenue and franchise costs line items to reflect the new method of presentation in our accompanying condensed consolidated statements of earnings.

Fiscal year — Our fiscal year is 52 or 53 weeks ending the Sunday closest to September 30. Fiscal year 2016 includes 53 weeks, while fiscal year 2015 includes 52 weeks. Our first quarter includes 16 weeks and all other quarters include 12 weeks, with the exception of the fourth quarter of fiscal 2016, which includes 13 weeks. All comparisons between 2016 and 2015 refer to the 12-weeks (“quarter”) and 28-weeks (“year-to-date”) ended April 10, 2016 and April 12, 2015, respectively, unless otherwise indicated.

Use of estimates — In preparing the condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles, management is required to make certain assumptions and estimates that affect reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingencies. In making these assumptions and estimates, management may from time to time seek advice and consider information provided by actuaries and other experts in a particular area. Actual amounts could differ materially from these estimates.

Effect of new accounting pronouncements — In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue Recognition - Revenue from Contracts with Customers (Topic 606)*, which provides a comprehensive new revenue recognition model that requires an entity to recognize revenue in an amount that reflects the consideration the entity expects to receive for the transfer of promised goods or services to its customers. The standard also requires additional disclosure regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. Further, in March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which clarifies the guidance in ASU No. 2014-09 when evaluating when another party, along with the entity, is involved in providing a good or service to a customer. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which clarifies the guidance in ASU No. 2014-09 regarding assessing whether promises to transfer goods or services are distinct, and whether an entity's promise to grant a license provides a customer with a right to use, or right to access the entity's intellectual property. All standards are effective for annual periods beginning after December 15, 2017, and interim periods within that reporting period. As such, we will be required to adopt these standards in the first quarter of fiscal 2019. These standards are to be applied retrospectively or using a cumulative effect transition method, and early adoption is not permitted. We are currently evaluating which transition method to use and the effect that these standards will have on our consolidated financial statements and related disclosures.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes*, which simplifies the presentation of deferred income taxes. This standard requires deferred tax liabilities and assets to be classified as noncurrent in a classified statement of financial position. This standard is effective prospectively or retrospectively for all periods presented for annual and interim periods beginning after December 15, 2017, with early adoption permitted. We early adopted this standard in the first quarter of 2016 and the prior period was retrospectively adjusted, resulting in a \$40.0 million reclassification of current deferred income taxes to other assets, net on our September 27, 2015 condensed consolidated balance sheet.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which requires a lessee to recognize assets and liabilities on the balance sheet for those leases classified as operating leases under previous guidance. This standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. This standard requires adoption based upon a modified retrospective transition approach, with early adoption permitted. We are currently evaluating the impact this standard will have on our consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-04, *Liabilities-Extinguishment of Liabilities (Subtopic 405-20): Recognition of Breakage for Certain Prepaid Stored-Value Products*, which is designed to provide guidance and eliminate diversity in the accounting for the derecognition of financial liabilities related to certain prepaid stored-value products using a revenue-like breakage model. This standard is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. This standard is to be applied retrospectively or using a cumulative effect transition method as of the date of adoption. We are currently evaluating which transition method to use, but believe the impact this standard will have on our consolidated financial statements and related disclosures will be immaterial upon adoption.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. This standard is intended to simplify various aspects of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. This standard is effective for annual reporting periods beginning after December 15, 2016, and interim periods within that reporting period, with early adoption permitted. We are currently evaluating the impact of the standard on our consolidated financial statements and related disclosures.

2. DISCONTINUED OPERATIONS

Distribution business — During fiscal 2012, we entered into an agreement with a third party distribution service provider pursuant to a plan approved by our Board of Directors to sell our Jack in the Box distribution business. During the first quarter of fiscal 2013, we completed the transition of our distribution centers. The operations and cash flows of the business have been eliminated and in accordance with the provisions of the FASB authoritative guidance on the presentation of financial statements, the results are reported as discontinued operations for all periods presented.

In 2016 and 2015, results of discontinued operations were immaterial for both periods. Our liability for lease commitments related to our distribution centers is included in accrued liabilities and other long-term liabilities, and was \$0.2 million as of April 10, 2016 and September 27, 2015. The lease commitment balances relate to one distribution center subleased at a loss.

2013 Qdoba Closures — During the third quarter of fiscal 2013, we closed 62 Qdoba restaurants. The decision to close these restaurants was based on a comprehensive analysis that took into consideration levels of return on investment and other key operating performance metrics. Since the closed locations were not predominantly located near those remaining in operation, we did not expect the majority of cash flows and sales lost from these closures to be recovered. In addition, we did not anticipate any ongoing involvement or significant direct cash flows from the closed stores. Therefore, in accordance with the provisions of the FASB authoritative guidance on the presentation of financial statements, the results of operations for these restaurants are reported as discontinued operations for all periods presented.

The following table summarizes the results related to the 2013 Qdoba Closures for each period (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Unfavorable lease commitment adjustments	\$ (462)	\$ (397)	\$ (1,468)	\$ (2,196)
Bad debt expense related to a subtenant	—	—	(124)	—
Ongoing facility related costs	(32)	(66)	(70)	(127)
Brokers commissions	(21)	(30)	(21)	(142)
Loss before income tax benefit	\$ (515)	\$ (493)	\$ (1,683)	\$ (2,465)

We do not expect the remaining costs to be incurred related to these closures to be material; however, our estimates related to our future lease obligations, primarily the sublease income we anticipate, are subject to a high degree of judgment and may differ from actual sublease income due to changes in economic conditions, desirability of the sites and other factors.

Our liability for lease commitments related to the 2013 Qdoba Closures is included in accrued liabilities and other long-term liabilities, and changed as follows in 2016 (*in thousands*):

Balance as of September 27, 2015	\$ 4,256
Adjustments (1)	1,468
Cash payments	(2,156)
Balance as of April 10, 2016	\$ 3,568

(1) Adjustments relate to revisions to certain sublease and cost assumptions due to changes in market conditions, as well as a charge to terminate one lease agreement, and includes interest expense.

(Losses) gains on the sale of company-operated restaurants	\$ (3)	\$ (5,020)	\$ 815	\$ (4,170)

- (1) Amounts in 2016 and 2015 include additional proceeds recognized upon the extension of the underlying franchise and lease agreements related to restaurants sold in a prior year of \$1.0 million and \$0.1 million, respectively, year-to-date. No additional proceeds were recognized during the quarter in either year.
- (2) Amounts in 2015 include lease commitment charges related to restaurants closed in connection with the sale of the related market, and charges for operating restaurant leases with lease commitments in excess of our sublease rental income.

Franchise acquisitions — During year-to-date 2016 and 2015, we acquired one and six Jack in the Box franchise restaurants, respectively. We account for the acquisition of franchised restaurants using the acquisition method of accounting for business combinations. The purchase price allocations were based on fair value estimates determined using significant unobservable inputs (Level 3). In all periods presented, acquisitions were not material to our condensed consolidated financial statements.

4. **FAIR VALUE MEASUREMENTS**

Financial assets and liabilities — The following table presents our financial assets and liabilities measured at fair value on a recurring basis (*in thousands*):

	Total	Quoted Prices in Active Markets for Identical Assets (3) (Level 1)	Significant Other Observable Inputs (3) (Level 2)	Significant Unobservable Inputs (3) (Level 3)
Fair value measurements as of April 10, 2016:

Interest rate swaps (Note 5) (2)	(26,374)	—	(26,374)	—
Total liabilities at fair value	<u>\$ (61,377)</u>	<u>\$ (35,003)</u>	<u>\$ (26,374)</u>	<u>\$ —</u>

- (1) We maintain an unfunded defined contribution plan for key executives and other members of management. The fair value of this obligation is based on the closing market prices of the participants' elected investments.
- (2) We entered into interest rate swaps to reduce our exposure to rising interest rates on our variable rate debt. The fair values of our interest rate swaps are based upon Level 2 inputs which include valuation models as reported by our counterparties. The key inputs for the valuation models are quoted market prices, discount rates and forward yield curves.
- (3) We did not have any transfers in or out of Level 1, 2 or 3.

The fair values of our debt instruments are based on the amount of future cash flows associated with each instrument discounted using our borrowing rate. At April 10, 2016, the carrying value of all financial instruments was not materially different from fair value, as the borrowings are prepayable without penalty. The estimated fair values of our capital lease obligations approximated their carrying values as of April 10, 2016.

Non-financial assets and liabilities — Our non-financial instruments, which primarily consist of property and equipment, goodwill and intangible assets, are reported at carrying value and are not required to be measured at fair value on a recurring basis. However, on an annual basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable, non-financial instruments are assessed for impairment. If applicable, the carrying values are written down to fair value.

In connection with our impairment reviews performed during 2016, no fair value adjustments were required. Refer to Note 6, *Impairment and Other Charges, Net* for additional information regarding impairment charges.

5. DERIVATIVE INSTRUMENTS

Objectives and strategies — We are exposed to interest rate volatility with regard to our variable rate debt. In April 2014, to reduce our exposure to rising interest rates, we entered into nine forward-starting interest rate swap agreements that effectively convert \$300.0 million of our variable rate borrowings to a fixed rate basis from October 2014 through October 2018. In June 2015, we entered into 11 forward-starting interest rate swap agreements that effectively convert an additional \$200.0 million of our variable rate borrowings, and future expected variable rate borrowings, to a fixed rate from October 2015 through October 2018, and \$500.0 million from October 2018 through October 2022. These agreements have been designated as cash flow hedges in accordance with the provisions of the FASB authoritative guidance for derivatives and hedging. To the extent that they are effective in offsetting the variability of the hedged cash flows, changes in the fair values of the derivatives are not included in earnings, but are included in other comprehensive income (“OCI”). These changes in fair value are subsequently reclassified into net earnings as a component of interest expense as the hedged interest payments are made on our variable rate debt.

Financial position — The following derivative instruments were outstanding as of the end of each period (*in thousands*):

	Balance Sheet Location	Fair Value	
		April 10, 2016	September 27, 2015
Derivatives designated as cash flow hedging instruments:			
Interest rate swaps (Note 4)	Accrued liabilities	\$ (3,922)	\$ (3,379)
Interest rate swaps (Note 4)	Other long-term liabilities	(40,315)	(22,995)
Total derivatives		<u>\$ (44,237)</u>	<u>\$ (26,374)</u>

Financial performance — The following is a summary of the OCI activity related to our interest rate swap derivative instruments (*in thousands*):

	Location of Loss in Income	Quarter		Year-to-date	
		April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
(Loss) gain recognized in OCI	N/A	\$ (8,746)	\$ 86	\$ (20,183)	\$ (6,672)
Loss reclassified from accumulated OCI into net earnings	Interest expense, net	\$ 876	\$ 468	\$ 2,320	\$ 1,095

Amounts reclassified from accumulated OCI into interest expense represent payments made to the counterparties for the effective portions of the interest rate swaps. During the periods presented, our interest rate swaps had no hedge ineffectiveness.

6. IMPAIRMENT AND OTHER CHARGES, NET

Impairment and other charges, net in the accompanying condensed consolidated statements of earnings is comprised of the following (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Disposition of property and equipment — Disposal costs primarily relate to gains or losses recognized upon the sale of closed restaurant properties. In the second quarter of 2015, losses on the disposition of property and equipment included a gain of \$0.9 million from the resolution of one eminent domain matter involving a Jack in the Box restaurant.

Restaurant closing costs — Costs of closed restaurants primarily consist of future lease commitments and expected ancillary costs, net of anticipated sublease rentals. Accrued restaurant closing costs, included in accrued liabilities and other long-term liabilities, changed as follows during 2016 (*in thousands*):

Balance as of September 27, 2015	\$ 9,707
Additions	208
Adjustments (1)	635
Interest expense	750
Cash payments	(2,768)
Balance as of April 10, 2016	<u>\$ 8,532</u>

- (1) Adjustments relate primarily to revisions of certain sublease and cost assumptions. Our estimates related to our future lease obligations, primarily the sublease income we anticipate, are subject to a high degree of judgment and may differ from actual sublease income due to changes in economic conditions, desirability of the sites and other factors.

Accelerated depreciation — When a long-lived asset will be replaced or otherwise disposed of prior to the end of its estimated useful life, the useful life of the asset is adjusted based on the estimated disposal date and accelerated depreciation is recognized. In 2016 and 2015, accelerated depreciation primarily relates to expenses at our Jack in the Box company-operated restaurants for exterior facility enhancements and the replacement of technology equipment, and in 2015, the replacement of beverage equipment.

Restaurant impairment charges — When events and circumstances indicate that our long-lived assets might be impaired and their carrying amount is greater than the undiscounted cash flows we expect to generate from such assets, we recognize an impairment loss as the amount by which the carrying value exceeds the fair value of the assets. Impairment charges in 2015 were not material to our condensed consolidated financial statements.

7. INCOME TAXES

The 2016 income tax provisions reflect tax rates of 36.7% in the quarter and 37.2% year-to-date, compared with 37.9% and 36.8%, respectively, in 2015. The major components of the year-over-year change in tax rates were an increase in the Company's state tax rate and the timing and amounts of gains or losses on insurance products used to fund certain non-qualified retirement plans which are excluded from taxable income. The final annual tax rate cannot be determined until the end of the fiscal year; therefore, the actual 2016 rate could differ from our current estimates.

We file income tax returns in the United States and all state and local jurisdictions in which we operate that impose an income tax. The federal statute of limitations has not expired for fiscal years 2012 and forward. The statutes of limitations for California and Texas, which constitute the Company's major state tax jurisdictions, have not expired for fiscal years 2011 and forward.

8. RETIREMENT PLANS

Defined benefit pension plans — We sponsor two defined benefit pension plans: a qualified plan covering substantially all full-time Jack in the Box employees hired prior to January 1, 2011, and an unfunded supplemental executive plan which provides certain employees additional pension benefits and was closed to new participants effective January 1, 2007. In fiscal 2011, the Board of Directors approved the sunset of our qualified plan whereby participants no longer accrue benefits effective December 31, 2015. Benefits under both plans are based on the employees' years of service and compensation over defined periods of employment.

Postretirement healthcare plans — We also sponsor two healthcare plans, closed to new participants, that provide postretirement medical benefits to certain employees who have met minimum age and service requirements. The plans are contributory, with retiree contributions adjusted annually, and contain other cost-sharing features such as deductibles and coinsurance.

Net periodic benefit cost — The components of net periodic benefit cost in each period were as follows (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Defined benefit pension plans:				
Service cost	\$ 1,212	\$ 1,908	\$ 2,828	\$ 4,452
Interest cost	5,580	5,237	13,020	12,220

Amortization of unrecognized prior service costs (1)	55	62	129	145
Net periodic benefit cost	<u>\$ 2,770</u>	<u>\$ 4,009</u>	<u>\$ 6,463</u>	<u>\$ 9,354</u>
Postretirement healthcare plans:				
Interest cost	\$ 291	\$ 276	\$ 680	\$ 644
Actuarial loss (1)	51	42	118	98
Net periodic benefit cost	<u>\$ 342</u>	<u>\$ 318</u>	<u>\$ 798</u>	<u>\$ 742</u>

(1) Amounts were reclassified from accumulated OCI into net earnings as a component of selling, general and administrative expenses.

Future cash flows — Our policy is to fund our plans at or above the minimum required by law. As of January 1, 2015, the date of our last actuarial funding valuation, there was no minimum contribution funding requirement. Details regarding 2016 contributions are as follows (*in thousands*):

	Defined Benefit Pension Plans	Postretirement Healthcare Plans
Net year-to-date contributions	\$ 7,617	\$ 638
Remaining estimated net contributions during fiscal 2016	\$ 16,900	\$ 700

We will continue to evaluate contributions to our qualified defined benefit pension plan based on changes in pension assets as a result of asset performance in the current market and economic environment.

9. SHARE-BASED COMPENSATION

We offer share-based compensation plans to attract, retain and motivate key officers, employees and non-employee directors. During year-to-date 2016, we granted the following shares related to our share-based compensation awards:

Stock options	99,923
Performance share awards	32,970
Nonvested stock units	140,794

The components of share-based compensation expense recognized in each period are as follows (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015

10. STOCKHOLDERS' EQUITY

Repurchases of common stock — During year-to-date 2016, we repurchased 3.5 million common shares at an aggregate cost of \$250.0 million. As of April 10, 2016, there was \$50.0 million remaining under a stock-buyback program which expires in November 2017.

Dividends — During year-to-date 2016, the Board of Directors declared two cash dividends of \$0.30 per common share which were paid on March 14, 2016 and December 22, 2015 to shareholders of record as of the close of business on March 1, 2016 and December 9, 2015, respectively, and totaled \$20.8 million. Future dividends are subject to approval by our Board of Directors.

11. AVERAGE SHARES OUTSTANDING

Our basic earnings per share calculation is computed based on the weighted-average number of common shares outstanding. Our diluted earnings per share calculation is computed based on the weighted-average number of common shares outstanding adjusted by the number of additional shares that would have been outstanding had the potentially dilutive common shares been issued. Potentially dilutive common shares include stock options, nonvested stock awards and units and non-management director stock equivalents. Performance share awards are included in the average diluted shares outstanding each period if the performance criteria have been met at the end of the respective periods.

The following table reconciles basic weighted-average shares outstanding to diluted weighted-average shares outstanding (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Weighted-average shares outstanding – basic	33,656	37,970	34,686	38,353

Nonvested stock awards and units	242	190	280	195
Performance share awards	123	160	124	154

Excluded from diluted weighted-average shares outstanding:

Performance conditions not satisfied at the end of the period	2	6	2	14

12. CONTINGENCIES AND LEGAL MATTERS

Legal matters — The Company assesses contingencies, including litigation contingencies, to determine the degree of probability and range of possible loss for potential accrual in its financial statements. An estimated loss contingency is accrued in the financial statements if it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Because litigation is inherently unpredictable, assessing contingencies is highly subjective and requires judgments about future events. When evaluating litigation contingencies, we may be unable to provide a meaningful estimate due to a number of factors, including the procedural status of the matter in question, the availability of appellate remedies, insurance coverage related to the claim or claims in question, the presence of complex or novel legal theories, and/or the ongoing discovery and development of information important to the matter. In addition, damage amounts claimed in litigation against us may be unsupported, exaggerated or unrelated to possible outcomes, and as such are not meaningful indicators of our potential liability or financial exposure. We regularly review contingencies to determine the adequacy of the accruals and related disclosures. The ultimate amount of loss may differ from these estimates.

Gessele v. Jack in the Box Inc. — In August 2010, five former employees instituted litigation in federal court in Oregon alleging claims under the federal Fair Labor Standards Act and Oregon wage and hour laws. The plaintiffs alleged that the Company failed to pay non-exempt employees for certain meal breaks and improperly made payroll deductions for shoe purchases and for workers' compensation expenses, and later added additional claims relating to timing of final pay and related wage and hour claims involving employees of a franchisee. The most recent complaint seeks damages of \$45.0 million but does not provide a basis for that amount. In fiscal 2012, we accrued for a single claim for which we believe a loss is both probable and estimable; this accrued loss contingency did not have a material effect on our results of operations. We have not established a loss contingency accrual for those claims as to which we believe liability is not probable or estimable, and we plan to vigorously defend against this lawsuit. Nonetheless, an unfavorable resolution of this matter in excess of our current accrued loss contingencies could have a material adverse effect on our business, results of operations, liquidity or financial condition.

Other legal matters — In addition to the matter described above, we are subject to normal and routine litigation brought by former, current or prospective employees, customers, franchisees, vendors, landlords, shareholders or others. We intend to defend ourselves in any such matters. Some of these matters may be covered, at least in part, by insurance. Our insurance liability (undiscounted) and reserves are established in part by using independent actuarial estimates of expected losses for reported claims and for estimating claims incurred but not reported. Our estimated liability for general liability and workers' compensation claims, which exceeded our self-insurance retention limits by \$25.8 million as of September 27, 2015, was reduced by \$21.7 million in 2016 due to a judgment paid by our insurance providers. We expect to be fully covered by our insurance providers for the remaining \$4.1 million that exceed our self-insurance retention limits as of April 10, 2016. We believe that the ultimate determination of liability in connection with legal claims pending against us, if any, in excess of amounts already provided for such matters in the condensed consolidated financial statements, will not have a material adverse effect on our business, our annual results of operations, liquidity or financial position; however, it is possible that our results of operations, liquidity, or financial condition could be materially affected in a particular future reporting period by the unfavorable resolution of one or more matters or contingencies during such period.

13. SEGMENT REPORTING

Our principal business consists of developing, operating and franchising our Jack in the Box and Qdoba restaurant concepts, each of which we consider reportable operating segments. This segment reporting structure reflects our current management structure, internal reporting method and financial information used in deciding how to allocate our resources. Based upon certain quantitative thresholds, each operating segment is considered a reportable segment.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

We measure and evaluate our segments based on segment revenues and earnings from operations. The reportable segments do not include an allocation of the costs related to shared service functions, such as accounting/finance, human resources, audit services, legal, tax and treasury; nor do they include unallocated costs such as pension expense and share-based compensation. These costs are reflected in the caption "Shared services and unallocated costs." The following table provides information related to our operating segments in each period (*in thousands*):

On May 5, 2016, the Board of Directors declared a cash dividend of \$0.30 per common share, to be paid on June 7, 2016 to shareholders of record as of the close of business on May 24, 2016.

On May 5, 2016, the Board of Directors approved an additional \$100.0 million stock buy-back program that expires in November 2017.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

All comparisons between 2016 and 2015 refer to the 12-weeks ("quarter") and 28-weeks ("year-to-date") ended April 10, 2016 and April 12, 2015, respectively, unless otherwise indicated.

For an understanding of the significant factors that influenced our performance during the quarterly and year-to-date periods ended April 10, 2016 and April 12, 2015, our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Condensed Consolidated Financial Statements and related Notes included in this Quarterly Report and our Annual Report on Form 10-K for the fiscal year ended September 27, 2015.

Our MD&A consists of the following sections:

- **Overview** — a general description of our business and 2016 highlights.
- **Financial reporting** — a discussion of changes in presentation, if any.
- **Results of operations** — an analysis of our condensed consolidated statements of earnings for the periods presented in our condensed consolidated financial statements.
- **Liquidity and capital resources** — an analysis of our cash flows including capital expenditures, share repurchase activity, dividends, known trends that may impact liquidity and the impact of inflation, if applicable.
- **Discussion of critical accounting estimates** — a discussion of accounting policies that require critical judgments and estimates.
- **New accounting pronouncements** — a discussion of new accounting pronouncements, dates of implementation and the impact on our consolidated financial position or results of operations, if any.
- **Cautionary statements regarding forward-looking statements** — a discussion of the risks and uncertainties that may cause our actual results to differ materially from any forward-looking statements made by management.

We have included in our MD&A certain performance metrics that management uses to assess Company performance and which we believe will be useful in analyzing and understanding our results of operations. These metrics include the following:

- Changes in sales at restaurants open more than one year ("same-store sales") and average unit volumes ("AUVs") are presented for franchised restaurants and on a system-wide basis, which includes company and franchise restaurants. Franchise sales represent sales at franchise restaurants and are revenues of our franchisees. We do not record franchise sales as revenues; however, our royalty revenues and percentage rent revenues are calculated based on a percentage of franchise sales. We believe franchise and system same-store sales and AUV information is useful to investors as a significant indicator of the overall strength of our business.
- Company restaurant margin ("restaurant margin") is defined as Company restaurant sales less expenses incurred directly by our restaurants in generating those sales (food and packaging costs, payroll and employee benefits, and occupancy and other costs). We also present restaurant margin as a percentage of Company restaurant sales.
- Franchise margin is defined as franchise rental revenues and franchise royalties and other, less franchise occupancy expenses, and franchise support and other costs, and is presented as a percentage of franchise revenues.

Same-store-sales, AUVs, restaurant margin, and franchise margin are not measurements determined in accordance with generally accepted accounting principles ("GAAP") and should not be considered in isolation, or as an alternative, to income from operations, or other similarly titled measures of other companies.

OVERVIEW

As of April 10, 2016, we operated and franchised 2,251 Jack in the Box quick-service restaurants, primarily in the western and southern United States, including one in Guam, and 683 Qdoba fast-casual restaurants operating primarily throughout the United States as well as the District of Columbia and Canada.

Our primary source of revenue is from retail sales at Jack in the Box and Qdoba company-operated restaurants. We also derive revenue from Jack in the Box and Qdoba franchise restaurants, including rental revenue, royalties (based upon a percent of sales) and franchise fees. In addition, we recognize gains or losses from the sale of company-operated restaurants to franchisees, which are included as a line item within operating costs and expenses, net in the accompanying Condensed Consolidated Statements of Earnings.

The following summarizes the most significant events occurring in 2016, and certain trends compared to a year ago:

- **Same-Store Sales** — Same-store sales declined 0.2% year-to-date at company-operated Jack in the Box restaurants compared with a year ago primarily driven by a decrease in traffic. Qdoba's year-to-date same-store sales increase of 2.2% at company-operated restaurants compared with a year ago, was driven primarily by an increase in transactions and double-digit catering growth.
- **Commodity Costs** — Commodity costs decreased approximately 2.2% and 5.1% year-to-date at our Jack in the Box and Qdoba restaurants, respectively, in 2016 compared with a year ago. We expect our overall commodity costs in fiscal 2016 to decrease approximately 2-3% and 5% at our Jack in the Box and Qdoba restaurants, respectively. Beef represents the largest portion, or approximately 20%, of the Company's overall commodity spend. We typically do not enter into fixed price contracts for our beef needs. For the full year, we currently expect beef costs to decrease approximately 15-20%.
- **Restaurant Margins** — Our year-to-date consolidated company-operated restaurant margin decreased in 2016 to 19.6% from 19.9% a year ago. Jack in the Box's company-operated restaurant margin improved to 20.8% in 2016 from 20.3% in the prior year due primarily to lower costs for food and packaging and benefits of refranchising, partially offset by minimum wage increases in California that went into effect in January 2016. Company-operated restaurant margins at our Qdoba restaurants decreased to 17.3% in 2016 from 19.1% a year ago primarily reflecting higher staffing levels and an increase in new restaurant activity.
- **Jack in the Box Franchising Program** — Year-to-date, franchisees opened a total of five restaurants. In fiscal 2016, we expect franchisees to open approximately 16 Jack in the Box restaurants. Our Jack in the Box system was 82% franchised at the end of the second quarter. We plan to increase franchise ownership of the Jack in the Box system to at least 90% within the next two years.
- **Qdoba New Unit Growth** — Year-to-date, we opened 19 company-operated restaurants, and franchisees opened ten restaurants. In fiscal 2016, we plan for the opening of 50 to 60 Qdoba restaurants, of which approximately half are expected to be company-operated restaurants.
- **Return of Cash to Shareholders** — Year-to-date, we returned cash to shareholders in the form of share repurchases and cash dividends. We repurchased 3.5 million shares of our common stock at an average price of \$72.44 per share, totaling \$250.0 million, including the costs of brokerage fees. We also declared dividends of \$0.60 per common share totaling \$20.8 million.

FINANCIAL REPORTING

The Condensed Consolidated Statements of Earnings for all periods presented reflect the results of operations for the 62 Qdoba restaurants we closed in the third quarter of fiscal 2013 (the "2013 Qdoba Closures") and charges incurred as a result of closing these restaurants as discontinued operations. During fiscal 2012, we entered into an agreement to outsource our Jack in the Box distribution business, and the results of operations and costs incurred to outsource our distribution business are also reflected as discontinued operations for all periods presented. Refer to Note 2, *Discontinued Operations*, in the Notes to Condensed Consolidated Financial Statements for more information.

In 2016, we adopted an updated accounting standard which simplifies the presentation of deferred income taxes and requires deferred tax liabilities and assets to be classified as non-current in a classified statement of financial position. Upon adoption, we retrospectively applied the new standard which resulted in a \$40.0 million reclassification of current deferred income taxes to other assets, net on our September 27, 2015 Condensed Consolidated Balance Sheet. Refer to Note 1, *Basis of Presentation*, in the Notes to Condensed Consolidated Financial Statements for more information.

Jack in the Box company restaurant sales decreased \$5.3 million in the quarter, and \$10.4 million year-to-date as compared with the prior year due to a reduction in the average number of company-operated restaurants resulting from the execution of our refranchising strategy which includes the sale of restaurants to franchisees. Higher AUV growth in 2016 versus a year ago partially offset the sales decrease attributable to refranchising in the quarter and year-to-date. The following table presents the approximate impact of these (decreases) increases on company restaurant sales (*in thousands*):

	Quarter	Year-to-date
Decrease in the average number of Jack in the Box company restaurants	\$ (5,800)	\$ (16,600)
Jack in the Box AUV increase	500	6,200
Total decrease in company restaurant sales	\$ (5,300)	\$ (10,400)

Same-store sales at Jack in the Box company-operated restaurants decreased 1.0% in the quarter, and 0.2% year-to-date, versus a year ago due to a decline in transactions and, to a lesser extent, to unfavorable product mix, which were partially offset by price increases. The following table summarizes the change in company-operated same-store sales:

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Average check (1)	1.4 %	5.0%	2.5 %	3.9%
Transactions	(2.4)%	2.4%	(2.7)%	1.4%
Change in same-store sales	(1.0)%	7.4%	(0.2)%	5.3%

(1) Amounts in 2016 and 2015 include price increases of approximately 3.2% and 2.1%, respectively, in the quarter, and 3.0% and 2.1%, respectively, year-to-date.

Food and packaging costs as a percentage of company restaurant sales decreased to 30.1% in the quarter and 30.6% year-to-date in 2016, compared with 31.6% and 32.3%, respectively, in 2015, due to lower commodity costs, favorable product mix changes, and menu price increases. Commodity costs decreased 2.9% in the quarter, and 2.2% year-to-date primarily reflecting lower costs for beef which were partially offset by higher costs for eggs and produce. Beef, our most significant commodity, decreased 21% in both periods of 2016 versus last year while eggs increased most significantly by approximately 28% in the quarter, and 44% year-to-date. For fiscal 2016, we currently expect commodity costs to decrease approximately 2-3% at our Jack in the Box restaurants compared with fiscal 2015.

Payroll and employee benefit costs as a percentage of company restaurant sales increased to 28.6% in the quarter and 28.2% year-to-date in 2016 from 27.5% and 27.6%, respectively, in 2015. In 2016, higher wages from minimum wage increases and higher costs for workers' compensation insurance were partially offset by lower levels of incentive compensation driven by operating results, and the benefits of franchising.

As a percentage of company restaurant sales, occupancy and other costs increased to 20.5% in both periods of 2016, compared with 19.5% in the quarter, and 19.9% year-to-date last year due to higher costs for equipment upgrades and maintenance and repair expenses, partially offset by lower costs for utilities and the benefits of franchising.

Franchise Operations

The following table presents Jack in the Box franchise revenues, costs and margin in each period and other information we believe is useful in analyzing the change in franchise operating results (*dollars in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015

Total franchise costs	40,146	42,044	95,675	98,032
Franchise margin	\$ 44,252	\$ 42,408	\$ 100,027	\$ 97,028
Franchise margin as a % of franchise revenues	52.4%	50.2%	51.1%	49.7%
Average number of franchise restaurants	1,839	1,823	1,838	1,822
% increase	0.9%		0.9%	
Franchise restaurant AUVs	\$ 337	\$ 336	\$ 775	\$ 765
Increase in franchise-operated same-store sales	0.3%	9.4%	1.1%	6.7%
Royalties as a percentage of franchise restaurant sales	5.1%	5.1%	5.1%	5.2%

Total franchise revenues, which principally includes franchise rental revenues and franchise royalties, decreased \$0.1 million or 0.1% in the quarter, and increased \$0.6 million or 0.3% year-to-date in 2016 as compared with a year ago, primarily reflecting increased rent income due to routine rent increases, and higher AUVs resulting in an increase in revenues from royalties and percentage rent, which were more than offset in the quarter, and partially offset year-to-date, by a reduction in initial franchise fees.

Franchise occupancy expenses decreased \$1.9 million in the quarter, and \$2.1 million year-to-date in 2016 versus a year ago, due primarily to favorable lease commitment adjustments of \$1.9 million recognized in the second quarter of 2016 related to previously refranchised markets based on sales performance over the first year resulting in higher rent, and to a lesser extent a decrease in depreciation expense as our building assets become fully depreciated. These decreases were partially offset by routine rent increases contributing to higher rental expense.

Franchise support and other costs remained flat in the quarter, and decreased \$0.3 million year-to-date in 2016 as compared with the prior year, primarily due to a decrease in bad debt expense.

Qdoba Brand

Company Restaurant Operations

The following table presents Qdoba company restaurant sales, costs and margin, and restaurant costs and margin as a percentage of the related sales. Percentages may not add due to rounding (*dollars in thousands*):

	Quarter				Year-to-date

Total company restaurant costs	75,308	81.7%	68,142	81.2%	172,832	82.7%	157,394	80.9%
Restaurant margin	\$ 16,820	18.3%	\$ 15,770	18.8%	\$ 36,238	17.3%	\$ 37,071	19.1%

Company restaurant sales increased \$8.2 million in the quarter and \$14.6 million year-to-date in 2016 as compared with the prior year due primarily to an increase in the number of Qdoba company-operated restaurants, and to a lesser extent, growth in AUVs. The following table presents the approximate impact of these increases on company restaurant sales (*in thousands*):

	Quarter	Year-to-date
Increase in the average number of Qdoba company restaurants	\$ 6,300	\$ 11,400
Qdoba AUV increase	1,900	3,200
Total increase in company restaurant sales	\$ 8,200	\$ 14,600

Same-store sales at Qdoba company-operated restaurants increased 3.1% in the quarter and 2.2% year-to-date as compared with the prior year primarily driven by transaction growth, menu price increases and catering. The following table summarizes the change in company-operated same-store sales:

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Transactions	3.7 %	(1.3)%	2.4 %	0.5%
Average check (1)	(1.1)%	7.4 %	(1.0)%	8.6%
Catering	0.5 %	0.9 %	0.8 %	1.1%
Change in same-store sales	3.1 %	7.0 %	2.2 %	10.2%

(1) Amounts in 2016 and 2015 include price increases of approximately 1.0% and 0.5%, respectively, in the quarter, and 0.8% and 0.4%, respectively, year-to-date.

Food and packaging costs as a percentage of company restaurant sales in 2016 decreased to 30.3% in the quarter, and 30.5% year-to-date, compared with 30.4% and 30.6%, respectively, in 2015, due to lower commodity costs which were partially offset by higher discounting and a higher frequency of guests choosing to add on extras like guacamole and queso at no additional charge. In 2016, commodity costs decreased 4.6% in the quarter, and 5.1% year-to-date primarily due to lower costs for beef, poultry, and year-to-date, cheese. In 2016, beef costs decreased by approximately 12% in the quarter and 13% year-to-date. For fiscal 2016, we currently expect commodity costs to decrease approximately 5% at our Qdoba restaurants compared with fiscal 2015.

Payroll and employee benefit costs as a percentage of company restaurant sales in 2016 increased to 26.8% in the quarter, and 27.2% year-to-date, from 26.4% and 26.3%, respectively, in 2015. In the quarter, the percent of sales increase is primarily due to higher costs for group insurance and incentive compensation, as well as an increase in new restaurant openings. Year-to-date, the increase is driven by higher levels of labor staffing and an increase in new restaurant openings, partially offset by lower levels of incentive compensation.

Occupancy and other costs increased to 24.6% of company restaurant sales in the quarter, and 24.9% year-to-date in 2016, compared with 24.3% and 24.1%, respectively, a year ago due primarily to higher costs related to technology and kitchen equipment upgrades, maintenance and repair expenses, higher property rents associated with new restaurants, and year-to-date, higher costs for uniforms.

Franchise Operations

The following table presents our Qdoba franchise revenues, costs and margin in each period and other information we believe is useful in analyzing the change in franchise operating results (*dollars in thousands*):

Increase in franchise-operated same-store sales	1.2%	9.6%	1.8%	12.6%
Royalties as a percentage of estimated franchise restaurant sales	5.0%	5.0%	5.0%	5.0%

(1) Included in franchise occupancy expenses in the accompanying Condensed Consolidated Statements of Earnings.

Franchise royalties and other increased \$0.2 million or 4.6% in the quarter, and \$0.4 million or 3.9% year-to-date in 2016 as compared with the prior year, primarily reflecting an increase in the average number of franchise restaurants, and to a lesser extent, higher AUVs resulting in an increase in revenue from royalties.

Franchise support and other costs increased \$0.2 million in the quarter, and \$0.6 million year-to-date in 2016 versus a year ago, due to an increase in support costs as well as bad debt expense of \$0.2 million recorded in the first quarter of 2016.

Selling, General and Administrative (“SG&A”) Expenses

The following table presents the change in SG&A expenses compared with the prior year (*in thousands*):

	Increase / (Decrease)	
	Quarter	Year-to-date
Advertising	\$ 1,680	\$ 3,625
Pre-opening costs	615	1,744
Qdoba brand conference	—	833
Consulting	(395)	117
Cash surrender value of COLI policies, net	(694)	119
Pension and postretirement benefits	(1,215)	(2,835)
Incentive compensation (including share-based compensation and related payroll taxes)	(3,914)	(5,123)
Other	(1,654)	(1,280)
	<u>\$ (5,577)</u>	<u>\$ (2,800)</u>

In 2016, advertising costs associated with our Qdoba brand increased by \$2.0 million in the quarter, and \$4.1 million year-to-date versus a year ago due primarily to an increase in television and digital advertising as well as a shift in the timing of spending. Advertising costs at our Jack in the Box brand are primarily contributions to our marketing fund and are determined as a percentage of gross restaurant sales. Jack in the Box advertising costs decreased \$0.3 million in the quarter, and \$0.5 million year-to-date compared with a year ago primarily due to our refranchising strategy which resulted in a decrease in the number of company-operated restaurants.

Pre-opening costs increased in 2016 as compared to a year ago due to an increase in the number of Qdoba restaurants opened and under construction in the period.

In 2016, Qdoba held a conference to communicate the vision and direction of the brand strategy to key stakeholders, which resulted in an increase in 2016 SG&A expenses.

The cash surrender value of our COLI policies, net of changes in our non-qualified deferred compensation obligations supported by these policies, are subject to market fluctuations. The changes in market values had a positive impact of \$2.3 million in the quarter and \$1.3 million year-to-date, compared with \$1.6 million and \$1.4 million, respectively, a year ago.

Pension and postretirement benefit costs decreased primarily due to the sunseting of our qualified pension plan on December 31, 2015, resulting in a decrease in the service cost component of our expense and a change in the amortization period for actuarial gains and losses from the average remaining service period to the average future lifetime of all participants. To a lesser extent, an increase in our discount rate also contributed to the decrease. These decreases were partially offset by an increase in Pension Benefit Guaranty Corporation premiums for 2016.

Incentive compensation decreased due primarily to lower levels of performance at both brands as compared to target bonus levels, and to a lesser extent, a reduction in payroll taxes associated with our stock compensation awards.

Impairment and other charges, net increased \$0.3 million in the quarter, and decreased \$0.2 million year-to-date compared with a year ago. Decreases in accelerated depreciation in both periods were more than offset in the quarter and offset year-to-date by an increase in losses on the disposition of property and equipment related to income of \$0.9 million recognized in the second quarter of 2015 in connection with the resolution of an eminent domain matter. Accelerated depreciation decreased as compared to a year ago due to a decrease in charges related to certain technology and beverage equipment upgrades at our Jack in the Box restaurants partially offset year-to-date by an increase in charges associated with exterior lighting upgrades at our Jack in the Box restaurants. Refer to Note 6, *Impairment and Other Charges, Net* of the Notes to the Condensed Consolidated Financial Statements for additional information regarding these costs.

(Losses) Gains on the Sale of Company-Operated Restaurants

(Losses) gains on the sale of company-operated restaurants	\$ (3)	\$ (5,020)	\$ 815	\$ (4,170)

(Losses) gains are impacted by the number of restaurants sold and changes in average gains or losses recognized, which relate to the specific sales and cash flows of those restaurants. In 2016 and 2015, (losses) gains on the sale of company-operated restaurants include additional gains of \$1.0 million and \$0.1 million, respectively, year-to-date, recognized upon the extension of the underlying franchise and lease agreements related to Jack in the Box restaurants sold in previous years. No additional gains were recognized during the quarter in either year. Refer to Note 3, *Summary of Refranchisings, Franchisee Development and Acquisitions*, of the Notes to the Condensed Consolidated Financial Statements for additional information regarding these (losses) gains.

Interest Expense, Net

Interest expense, net is comprised of the following (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Interest expense	\$ 7,125	\$ 4,288	\$ 15,356	\$ 9,692

Interest expense, net	\$ 6,911	\$ 4,220	\$ 15,086	\$ 9,433

Interest expense, net increased \$2.7 million in the quarter and \$5.7 million year-to-date compared with a year ago due to higher average borrowings and to a lesser extent, higher average interest rates.

Income Taxes

The tax rate in 2016 was 36.7% in the quarter and 37.2% year-to-date, compared with 37.9% and 36.8%, respectively, a year ago. The major components of the year-over-year change in tax rates were an increase in the Company's state tax rate and the timing and amounts of gains or losses on insurance products used to fund certain non-qualified retirement plans which are excluded from taxable income. We expect the fiscal year tax rate to be approximately 38%. The final annual tax rate cannot be determined until the end of the fiscal year; therefore, the actual 2016 rate could differ from our current estimates.

Losses from Discontinued Operations, Net

As described in Note 2, *Discontinued Operations*, in the Notes to Condensed Consolidated Financial Statements, the results of operations from our distribution business and the 2013 Qdoba Closures have been reported as discontinued operations for all periods presented.

Losses from discontinued operations, net of tax are as follows for each discontinued operation (*in thousands*):

	Quarter		Year-to-date	
	April 10, 2016	April 12, 2015	April 10, 2016	April 12, 2015
Distribution business	\$ 3	\$ (44)	\$ 24	\$ (80)

	<u>\$ (346)</u>	<u>\$ (357)</u>	<u>\$ (1,022)</u>	<u>\$ (1,620)</u>

In all periods presented, losses from discontinued operations incurred in connection with the 2013 Qdoba Closures primarily relate to unfavorable lease commitment adjustments.

Losses from discontinued operations reduced diluted earnings per share by the following in each period (earnings per share may not add due to rounding):

	Quarter		Year-to-date

LIQUIDITY AND CAPITAL RESOURCES

General

Our primary sources of short-term and long-term liquidity are expected to be cash flows from operations and our revolving bank credit facility.

We generally reinvest available cash flows from operations to develop new restaurants or enhance existing restaurants, to reduce debt, to repurchase shares of our common stock, and to pay cash dividends. Our cash requirements consist principally of:

- working capital;
- capital expenditures for new restaurant construction and restaurant renovations;
- income tax payments;
- debt service requirements; and
- obligations related to our benefit plans.

Based upon current levels of operations and anticipated growth, we expect that cash flows from operations, combined with other financing alternatives in place or available, will be sufficient to meet our capital expenditure, working capital and debt service requirements for at least the next twelve months and the foreseeable future.

As is common in the restaurant industry, we maintain relatively low levels of accounts receivable and inventories, and our vendors grant trade credit for purchases such as food and supplies. We also continually invest in our business through the addition of new units and refurbishment of existing units, which are reflected as long-term assets and not as part of working capital. As a result, we may at times maintain current liabilities in excess of current assets, which results in a working capital deficit.

Cash Flows

The table below summarizes our cash flows from operating, investing and financing activities (*in thousands*):

	Year-to-date	
	April 10, 2016	April 12, 2015
Total cash provided by (used in):		
Operating activities	\$ 80,453	\$ 90,920
Investing activities	(45,158)	(28,584)
Financing activities	(44,252)	(62,539)
Effect of exchange rate changes	13	11
Net decrease in cash and cash equivalents	\$ (8,944)	\$ (192)

Operating Activities. Operating cash flows in 2016 decreased \$10.5 million compared with a year ago primarily due to a \$32.1 million increase in income tax payments as we did not receive a tax benefit in the current year as a result of a fixed asset cost segregation study, which benefited the prior year, and due to a reduction in tax benefits associated with stock-based compensation. The increase in income tax payments was partially offset by an increase of \$14.7 million in beverage funding in the current year due to timing of receipt, and an increase in net earnings in 2016.

Investing Activities. Cash used in investing activities in 2016 increased \$16.6 million compared with a year ago due primarily to an increase in capital expenditures and a decrease in collections on notes receivable, partially offset by an increase in proceeds from assets held for sale and leaseback.

Capital Expenditures — The composition of capital expenditures in each period follows (*in thousands*):

	Year-to-date	
	April 10, 2016	April 12, 2015
Jack in the Box:		
Restaurant facility expenditures	\$ 14,489	\$ 12,106
New restaurants	6,213	2,699
Other, including information technology	286	342
	<u>20,988</u>	<u>15,147</u>
Qdoba:		
New restaurants	23,198	8,663
Restaurant facility expenditures	2,661	2,038
Other, including information technology	2,363	2,008
	<u>28,222</u>	<u>12,709</u>
Shared Services:		
Information technology	1,927	3,222
Other, including facility improvements	161	1,881
	<u>2,088</u>	<u>5,103</u>
Consolidated capital expenditures	<u>\$ 51,298</u>	<u>\$ 32,959</u>

Our capital expenditure program includes, among other things, investments in new locations and equipment, restaurant remodeling, and information technology enhancements. Capital expenditures increased \$18.3 million compared to a year ago primarily resulting from an increase in spending related to building new Qdoba and Jack in the Box restaurants. We expect fiscal 2016 capital expenditures to be approximately \$100-\$120 million. In fiscal 2016, we plan for 50 to 60 Qdoba restaurants to open, of which approximately half are expected to be company-operated locations. Additionally, we plan for approximately 20 Jack in the Box restaurants to open in fiscal 2016, of which four are expected to be company-operated locations.

Sale of Company-Operated Restaurants — We continue to expand franchise ownership in the Jack in the Box system primarily through the sale of company-operated restaurants to franchisees. The following table details proceeds received in connection with our refranchising activities in each period (*dollars in thousands*):

	Year-to-date	
	April 10, 2016	April 12, 2015
Number of restaurants sold to Jack in the Box franchisees	1	21
Total proceeds	\$ 1,021	\$ 2,630

Proceeds in 2016 and 2015 include additional gains of \$1.0 million and \$0.1 million, respectively, year-to-date, recognized upon the extension of the underlying franchise and lease agreements related to Jack in the Box restaurants sold in previous years. For additional information, refer to Note 3, *Summary of Refranchisings, Franchisee Development and Acquisitions*, of the Notes to Condensed Consolidated Financial Statements.

Assets Held for Sale and Leaseback — We use sale and leaseback financing to limit the initial cash investment in our restaurants to the cost of the equipment, whenever possible. During 2016, we exercised our right of first refusal related to three leased properties which we intend to sell and leaseback within the next 12 months. In 2015, we did not sell and leaseback any properties. The following table summarizes the cash flow activity related to sale and leaseback transactions in each period (*dollars in thousands*):

	Year-to-date	
	April 10, 2016	April 12, 2015
Number of restaurants sold and leased back	5	—
Proceeds from sale and leaseback transactions	\$ 7,748	\$ —
Purchases of assets intended for sale and leaseback	\$ (5,581)	\$ (5,355)

As of April 10, 2016, we had investments of \$19.4 million relating to eight restaurant properties that we expect to sell and leaseback during the next 12 months.

Financing Activities. Cash flows used in financing activities in 2016 decreased \$18.3 million compared with a year ago primarily due to an increase in our borrowings on our credit facility, partially offset by an increase in cash used to repurchase shares of our common stock, a decrease in excess tax benefits from share based compensation arrangements and a decrease in proceeds from issuance of our common stock.

Credit Facility — Our credit facility consists of (i) a \$900.0 million revolving credit agreement and (ii) a \$300.0 million term loan. Both the revolving credit agreement and the term loan have maturity dates of March 19, 2019. As part of the credit agreement, we may also request the issuance of up to \$75.0 million in letters of credit, the outstanding amount of which reduces our net borrowing capacity under the agreement. At April 10, 2016, we had \$288.3 million outstanding under the term loan, borrowings under the revolving credit agreement of \$628.0 million and letters of credit outstanding of \$25.2 million.

The interest rate on the credit facility is based on our leverage ratio and can range from London Interbank Offered Rate (“LIBOR”) plus 1.25% to 2.00% with no floor. The current interest rate is LIBOR plus 2.00%.

We are subject to a number of customary covenants under our credit facility, including limitations on additional borrowings, acquisitions, loans to franchisees, lease commitments, stock repurchases, dividend payments and requirements to maintain certain financial ratios. We were in compliance with all covenants as of April 10, 2016.

Interest Rate Swaps — To reduce our exposure to rising interest rates under our credit facility, we consider interest rate swaps. In April 2014, we entered into nine forward-starting interest rate swap agreements that effectively convert \$300.0 million of our variable rate borrowings to a fixed rate basis from October 2014 through October 2018. In June 2015, we entered into eleven forward-starting interest rate swap agreements that effectively convert an additional \$200.0 million of our variable rate borrowings and future expected variable rate borrowings to a fixed rate from October 2015 through October 2018, and \$500.0 million from October 2018 through October 2022. For additional information, refer to Note 5, *Derivative Instruments*, of the Notes to Condensed Consolidated Financial Statements and Item 3, *Quantitative and Qualitative Disclosures About Market Risk*, of this Report.

Repurchases of Common Stock — During year-to-date 2016, we repurchased 3.5 million common shares at an aggregate cost of \$250.0 million, compared with 2.1 million common shares at an aggregate cost of \$176.6 million in 2015. As of April 10, 2016, there was \$50.0 million remaining under a stock-buyback program which expires in November 2017.

Dividends — During year-to-date 2016, the Board of Directors declared two cash dividends of \$0.30 per common share each, which totaled \$20.8 million. Future dividends are subject to approval by our Board of Directors.

Off-Balance Sheet Arrangements

We have entered into certain off-balance sheet contractual obligations and commitments in the ordinary course of business, which are recognized in our Condensed Consolidated Financial Statements in accordance with U.S. generally accepted accounting principles. There has been no material change in these arrangements as disclosed in our Management’s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended September 27, 2015. We are not a party to any other off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, results of operations, liquidity, capital expenditures or capital resources.

DISCUSSION OF CRITICAL ACCOUNTING ESTIMATES

Critical accounting estimates are those the Company believes are most important for the portrayal of the Company’s financial condition and results and that require management’s most subjective and complex judgments. Judgments and uncertainties regarding the application of these policies may result in materially different amounts being reported under various conditions or using different assumptions. There have been no material changes to the critical accounting estimates previously disclosed in the Company’s Annual Report on Form 10-K for the fiscal year ended September 27, 2015.

NEW ACCOUNTING PRONOUNCEMENTS

Refer to Note 1, *Basis of Presentation*, of the Notes to Condensed Consolidated Financial Statements.

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of the federal securities laws. Any statements contained herein that are not historical facts may be deemed to be forward-looking statements. Forward-looking statements may be identified by words such as “anticipate,” “assume,” “believe,” “estimate,” “expect,” “forecast,” “goals,” “guidance,” “intend,” “plan,” “project,” “may,” “will,” “would,” “should” and similar expressions. These statements are based on management’s current expectations, estimates, forecasts and projections about our business and the industry in which we operate. These estimates and assumptions involve known and unknown risks, uncertainties, and other factors that are in some cases beyond our control. Factors that may cause our actual results to differ materially from any forward-looking statements include, but are not limited to:

- Food service businesses such as ours may be materially and adversely affected by changes in consumer preferences or dining habits, and economic, political and socioeconomic conditions. Adverse economic conditions such as unemployment and decreased discretionary spending may result in reduced restaurant traffic and sales and impose practical limits on pricing. We are also subject to geographic concentration risks, with nearly 70% of system Jack in the Box restaurants located in California and Texas.
- Our profitability depends in part on food and commodity costs and availability, including animal feed costs and fuel costs and other supply and distribution costs. The risks of increased commodities costs and volatility in costs could adversely affect our profitability and results of operations.
- The success of our business strategy depends on the value and relevance of our brands. Multi-unit food service businesses such as ours can be materially and adversely affected by widespread negative publicity of any type, particularly regarding food quality, food safety or public health issues. Negative publicity regarding our brands or the restaurant industry in general could cause a decline in system restaurant sales and could have a material adverse effect on our financial condition and results of operations.
- We are reliant on third party suppliers and distributors, and any shortages or interruptions in supply could adversely affect the availability, quality and cost of ingredients.
- Our business can be materially and adversely affected by severe weather conditions or natural disasters, which can result in lost restaurant sales, supply chain interruptions and increased costs.
- Growth and new restaurant development involve substantial risks, including risks associated with unavailability of suitable franchisees, limited financing availability, cost overruns and the inability to secure suitable sites on acceptable terms. In addition, our growth strategy includes opening restaurants in new or existing markets where we cannot assure that we will be able to successfully expand or acquire critical market presence, attract customers or otherwise operate profitably.
- There are risks associated with our franchise business model, including the demand for our franchises, the selection of appropriate franchisees and whether our franchisees and new restaurant developers will have the capabilities to be effective operators and remain aligned with us on operating, promotional and capital-intensive initiatives, in an ever-changing competitive environment. Additionally, our franchisees and operators could experience operational, financial or other challenges that could affect payments to us of rents and/or royalties, or could damage our brands and reputation.
- Our plan to increase the percentage of franchise restaurants to over 90% is subject to risks and uncertainties, and we may not achieve reductions in costs at the rate we desire. We may not be able to identify franchisee candidates with appropriate experience and financial resources or to negotiate mutually acceptable agreements with potential franchisees. Our franchisee candidates may not be able to obtain financing at acceptable rates and terms. We may not be able to increase the percentage of franchised restaurants at the rate we desire or achieve the ownership mix of franchise to company-operated restaurants that we desire.
- The restaurant and take-away food industry is highly competitive with respect to price, service, location, brand identification and menu quality and innovation. We cannot assure that we will be able to effectively respond to aggressive competitors (including competitors with significantly greater financial resources); or that our competitive strategies will increase our same-store sales and AUVs; or that our new products, service initiatives, overall strategies or execution of those strategies will be successful.
- Should our advertising and promotions be less effective than our competitors, there could be a material adverse effect on our results of operations and financial condition.
- In recent years, we have identified strategies and taken steps to reduce operating costs to align with the increased Jack in the Box franchise ownership and to further integrate Jack in the Box and Qdoba brand systems. The ability to evaluate, identify and implement operating cost reductions through these initiatives is subject to risks and uncertainties, and we cannot assure that these activities, or any other activities that we may undertake in the future, will achieve the desired cost savings and efficiencies.
- The loss of key personnel could have a material adverse effect on our business.

- The costs of compliance with government regulations, including those resulting in increased labor costs, could negatively affect our results of operations and financial condition.
- A material failure or interruption of service or a breach in security of our information technology systems or databases could cause reduced efficiency in operations, loss or misappropriation of data or business interruptions, which in turn could affect cash flows or our operating results. In addition, the costs of information security, regulatory compliance, investment in technology and risk mitigation measures may negatively affect our margins or financial results.
- We maintain a documented system of internal controls, which is reviewed and monitored by an Internal Controls Committee and tested by the Company's full-time internal audit department. Any failures in the effectiveness of our internal controls could have a material adverse effect on our operating results or cause us to fail to meet our reporting obligations.
- We are subject to risks of owning, operating and leasing property, including but not limited to environmental risks, which could result in the imposition of severe penalties or restrictions on operations by governmental agencies or courts of law, which could adversely affect operations.
- We have a significant amount of indebtedness, which could adversely affect our business and our ability to meet our obligations. Our ability to repay expected borrowings under our credit facility and to meet our other debt or contractual obligations will depend upon our future performance and our cash flows from operations, both of which are subject to prevailing economic conditions and financial, business and other known and unknown risks and uncertainties, certain of which are beyond our control.
- Changes in accounting standards, policies or related interpretations by accountants or regulatory entities may negatively impact our results.
- We are subject to litigation which is inherently unpredictable and can result in unfavorable resolutions where the amount of ultimate loss may exceed our estimated loss contingencies, impose other costs related to defense of claims, or distract management from our operations.

These and other factors are identified and described in more detail in our filings with the Securities and Exchange Commission, including, but not limited to: the "Discussion of Critical Accounting Estimates," and other sections in this Form 10-Q and the "Risk Factors" section of our most recent Annual Report on Form 10-K for the fiscal year ended September 27, 2015 ("Form 10-K"). These documents may be read free of charge on the SEC's website at www.sec.gov. Potential investors are urged to consider these factors, more fully described in our Form 10-K, carefully in evaluating any forward-looking statements, and are cautioned not to place undue reliance on the forward-looking statements. All forward-looking statements are made only as of the date issued, and we do not undertake any obligation to update any forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary exposure to risks relating to our financial instruments is changes in interest rates. Our credit facility is comprised of a revolving credit facility and a term loan, bearing interest at a rate equal to the prime rate or LIBOR plus an applicable margin based on a financial leverage ratio. As of April 10, 2016, the applicable margin for the LIBOR-based revolving loans and term loan was set at 2.00%.

We use interest rate swap agreements to reduce exposure to interest rate fluctuations. In April 2014, we entered into nine forward-starting interest rate swap agreements that effectively convert \$300.0 million of our variable rate borrowings to a fixed rate basis from October 2014 through October 2018. In June 2015, we entered into eleven forward-starting interest rate swap agreements that effectively convert an additional \$200.0 million of our variable rate borrowings, and future expected variable rate borrowings, to a fixed rate from October 2015 through October 2018, and \$500.0 million from October 2018 through October 2022. Based on the applicable margin in effect as of April 10, 2016, these twenty interest rate swaps would yield average fixed rates of 3.18%, 3.90%, 4.41%, 4.62%, 4.89%, 5.07%, 5.17% in years two through eight, respectively. For additional information related to our interest rate swaps, refer to Note 5, *Derivative Instruments*, of the Notes to Condensed Consolidated Financial Statements.

We are also exposed to the impact of commodity and utility price fluctuations. Many of the ingredients we use are commodities or ingredients that are affected by the price of other commodities, weather, seasonality, production, availability and various other factors outside our control. In order to minimize the impact of fluctuations in price and availability, we monitor the primary commodities we purchase and may enter into purchasing contracts and pricing arrangements when considered to be advantageous. However, certain commodities remain subject to price fluctuations. We are exposed to the impact of utility price fluctuations related to unpredictable factors such as weather and various other market conditions outside our control. Our ability to recover increased costs for commodities and utilities through higher prices is limited by the competitive environment in which we operate.

ITEM 4. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Based on an evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a - 15 and 15d - 15 of the Securities Exchange Act of 1934, as amended), as of the end of the Company's quarter ended April 10, 2016, the Company's Chief Executive Officer and Chief Financial Officer (its principal executive officer and principal financial officer, respectively) have concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended April 10, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

There is no information required to be reported for any items under Part II, except as follows:

ITEM 1. LEGAL PROCEEDINGS

See Note 12, *Contingencies and Legal Matters*, of the Notes to Condensed Consolidated Financial Statements for a discussion of our contingencies and legal matters.

ITEM 1A. RISK FACTORS

When evaluating our business and our prospects, you should consider the risks and uncertainties described under Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended September 27, 2015, which we filed with the SEC on November 19, 2015. You should also consider the risks and uncertainties discussed under the heading "Cautionary Statements Regarding Forward-Looking Statements" in Item 2 of this Quarterly Report on Form 10-Q. You should also refer to the other information set forth in this Quarterly Report and in our Annual Report on Form 10-K for the fiscal year ended September 27, 2015, including our financial statements and the related notes. There have been no material changes from the risk factors as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended September 27, 2015. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently consider immaterial may also impair our business operations. If any of the risks or uncertainties actually occurs, our business and financial results could be harmed. In that case, the market price of our common stock could decline.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our credit agreement provides for the potential payment of cash dividends and stock repurchases, subject to certain limitations based on our leverage ratio as defined in our credit agreement.

Stock Repurchases — During fiscal 2016, we repurchased 3.5 million common shares at an aggregate cost of \$250.0 million. As of April 10, 2016, there was \$50.0 million remaining under a stock-buyback program which expires in November 2017.

The following table summarizes common shares repurchased during the quarter ended April 10, 2016. The average price paid per common share in column (b) below does not include the cost of brokerage fees.

UNDER THE 2004 STOCK INCENTIVE PLAN**

THIS AGREEMENT is made as of <<date>> between **JACK IN THE BOX INC.**, a Delaware corporation (the "**Company**"), and «full name» (the "**Awardee**").

RECITALS

The Compensation Committee (the "**Committee**") of the Board of Directors of the Company which administers the Company's 2004 Stock Incentive Plan (the "**Plan**"), has granted to the Awardee as of <<date>>, (the "**Grant Date**"), this award of Restricted Stock Units (RSUs), on the terms and conditions set forth herein.

AGREEMENT

In consideration of the foregoing and of the mutual covenants set forth herein and other good and valuable consideration, the parties hereto agree as follows:

1. RESTRICTED STOCK UNIT AWARD. The Committee hereby grants «NUMBER_OF_SHARES» shares of RSUs (the "**Award**") to the Awardee on the terms and conditions set forth herein. All of the RSUs are nonvested as of the Grant Date. As of the Grant Date, the Company will credit to a bookkeeping account maintained by the Company for Awardee's benefit the number of RSUs subject to the Award. Upon vesting and settlement, a portion of the shares of Stock that are delivered to the Awardee's brokerage account will be subject to an additional holding period requirement, as described in Section 4.

2. VESTING. Notwithstanding any other provision of the Plan to the contrary, and except as provided in Section 8 (Termination of Service) and Section 11 (Terminating Transactions) of this Agreement, this Award shall vest 100% on the first business day 12 months from the Grant Date (<<Vest Date>>). No portion of this Award shall become vested prior to the first anniversary of the Grant Date except as provided in Section 8 or Section 11 of this Agreement.

3. DEFERRAL ELECTION. An Awardee may elect to defer this Award until the earlier of his or her termination of Board service or a Change in Control, provided such election is made on a timely basis in compliance with the requirements of Internal Revenue Code Section 409A and the regulations and other guidance issued thereunder (collectively, "**Code Section 409A**"). An Awardee's election with respect to the deferral of an Award shall be submitted in writing and in a form reasonably acceptable to the Company within the time period established by the Company in accordance with the preceding sentence. If an Awardee has made such an election, distribution of the Award shall be deferred until the earliest event specified in Section 6(b), as applicable. An Awardee who fails to make an express election with respect to the deferral of an Award shall be deemed to have elected not to defer the Award.

4. HOLDING PERIOD REQUIREMENT. As a condition to receipt of this Award, Awardee hereby acknowledges and agrees to be bound by applicable stock holding requirements that could require that the Awardee hold and not transfer under any circumstance until the Awardee's termination of service to the Company, all or a portion of the total net shares of Stock (rounded to the nearest whole share) issued to Awardee pursuant to vesting of the RSU Award.

5. CONSIDERATION. This Award has been granted in consideration of the Awardee's continued service as a Director and acceptance by the Awardee of the terms and conditions set forth in the Plan and in the Agreement.

6. DISTRIBUTION. An Award that has become vested in accordance with any Section of this Agreement shall be distributed to the Awardee in the form of one share of common stock of the Company ("**Common Stock**") for each Restricted Stock Unit subject to the Award (including any additional Restricted Stock Units credited to the Award pursuant to Section 12, but with any fractional Restricted Stock Units rounded down to the nearest whole number) in a single lump sum in the form of book entry through a Company-designated brokerage firm. Such distribution shall occur as follows:

(a) if the Awardee has not made an election with respect to the deferral of the Award pursuant to Section 3, such distribution will occur on the earliest of the following:

- (i) upon the vesting of the Award in accordance with Section 2 (or within 30 days thereafter, as determined by the Company in its sole discretion);

- (ii) upon the Awardee's termination of service as a Director for any reason in accordance with Section 8 (or within 30 days thereafter, as determined by the Company in its sole discretion), subject to any required delay under Code Section 409A as described in Section 8; and
- (iii) upon a Change in Control in accordance with Section 11 (or within 30 days thereafter, as determined by the Company in its sole discretion), provided that such Change in Control also constitutes a "change in control event" under Code Section 409A.

(b) if the Awardee has made an election with respect to the deferral of the Award pursuant to Section 3, such distribution will occur on the earliest of the following:

- (i) upon the Awardee's termination of service as a Director for any reason in accordance with Section 8 (or within 30 days thereafter, as determined by the Company in its sole discretion), subject to any required delay under Code Section 409A as described in Section 8; and
- (ii) upon a Change in Control in accordance with Section 11 (or within 30 days thereafter, as determined by the Company in its sole discretion), provided that such Change in Control also constitutes a "change in control event" under Code Section 409A.

7. NONTRANSFERABILITY OF AWARD. This Award is not transferable otherwise than by will or the laws of descent and distribution. This Award shall not be otherwise transferred, assigned, pledged, hypothecated or otherwise disposed of in any way, whether by operation of law or otherwise, and shall not be subject to execution, attachment or similar process. Upon any attempt to transfer this Award otherwise than by will or the laws of descent and distribution or to assign, pledge, hypothecate or otherwise dispose of this Award, or upon the levy of any execution, attachment or similar process upon this Award, this Award shall immediately terminate and become null and void.

8. TERMINATION OF SERVICE. If the Awardee's service as a Director terminates for any reason, then this Award shall be considered 100% vested on such termination of service and distributed to the Awardee in the form and within the applicable time period described in Section 6, or to the person or persons to whom Awardee's rights under the Award have passed by will or by applicable laws of descent and distribution; *provided, however*, that (i) for purposes of this Agreement, the term "termination of service" shall have the same meaning as the term "separation from service" under Code Section 409A and (ii) if the Awardee is a "specified employee" within the meaning of Code Section 409A(a)(2)(B)(i) at the time of such termination of service, then the Award shall be distributed in the form described in Section 6 on the date that is six (6) months and one (1) day following the date of such termination of service or, if earlier, the date of the Awardee's death.

9. LEGALITY. The Company is not required to issue any shares of Common Stock subject to this Award until all applicable requirements of the Securities and Exchange Commission (the "**SEC**"), the California Department of Corporations or other regulatory agencies having jurisdiction with respect to such issuance, and any exchanges upon which the Common Stock may be listed, shall have been fully complied with. If shares of Common Stock subject to this Award are being distributed subject to restrictions or if the rules and interpretations of the SEC so require, such shares may be issued only if the Awardee represents and warrants in writing to the Company that the shares are being acquired for investment and not with a view to the distribution thereof, and any certificates issued upon distribution of the shares shall bear appropriate legends setting forth the restrictions on transfer of such shares. Such legends may not be removed until the Company so requests, based on the opinion of the Company's Counsel that the restrictions are no longer applicable.

10. ADJUSTMENTS IN STOCK. Subject to the provisions of the Plan, if the outstanding shares of the Company of the class subject to this Award are increased or decreased, or are changed into or exchanged for a different number or kind of shares or securities as a result of one or more reorganizations, recapitalizations, stock splits, reverse stock splits, stock dividends and the like, appropriate adjustments, to be conclusively determined by the Committee, shall be made in the number and/or type of shares or securities subject to this Award consistent with any and all changes stipulated above, and any fractional shares resulting from adjustments will be rounded down to the nearest whole number.

11. TERMINATING TRANSACTIONS. Upon the dissolution or liquidation of the Company prior to the Award becoming 100% vested, this Award shall terminate. Upon the occurrence of a Change in Control, this Award shall be considered 100% vested as of the date of the Change in Control and distribution will be made in the form and within the applicable time period described in Section 6; *provided, however*, that a distribution will only be made pursuant to this Section 11 if such Change in Control also constitutes a "change in control event" under Code Section 409A.

12. DIVIDENDS. If the Awardee has made an election with respect to the deferral of the Award pursuant to Section 3 and the Award has become vested, then the Award shall be credited with additional Restricted Stock Units (and any fractions thereof) with respect to the vested deferred Restricted Stock Units (and any fractions thereof) subject to the Award as dividend equivalents at such time(s), if any, that cash dividends are paid on the Common Stock. The number of additional Restricted Stock Units (and any fractions thereof) to be credited shall be determined by multiplying the number of vested Restricted Stock Units (and fractions thereof) deferred by the Awardee (which shall include any Restricted Stock Units (and fractions thereof) credited to the Award in connection with dividends under this Section 12), times the dollar amount of the cash dividend per share of Common Stock, then dividing by the Market Value (as defined below) of a share of Common Stock on the dividend

payment date, and then rounding to the nearest hundredth. Any additional Restricted Stock Units (and any fractions thereof) credited to an Award under this Section 12 shall be vested immediately upon the time of such crediting.

For purposes of this Section 12, "Market Value" shall mean the average of the closing prices of the Common Stock as quoted on the NASDAQ Global Select Market during the ten (10) trading days immediately preceding the date in question, or, if the Common Stock is not quoted on such market, on the principal national securities market or exchange in the United States registered under the Securities Exchange Act of 1934, as amended, on which the Common Stock is listed, or, if the Common Stock is not then reported thereon, any similar system then in use, as selected by the Board, or if no such quotations are available, the fair market value on the date in question of a share of the Common Stock as determined by a majority of the Directors in good faith.

13. PLAN CONTROLS. The Award and all terms and conditions set forth in this Agreement are subject in all respects to the terms and conditions of the Plan as may be amended from time to time, (but no amendment shall adversely affect the Awardee's rights under this Award) and any rules and regulations promulgated by the Committee, which shall be controlling. All constructions, interpretations, rule determinations or other actions taken by the Committee shall be final, binding and conclusive on all interested parties, including the Company and its subsidiaries and all former, present and future employees of the Company or its subsidiaries. Capitalized terms that are not defined herein shall have the definition given to them in the Plan.

14. ARBITRATION. Any dispute or claim concerning any Award granted (or not granted) pursuant to the Plan and this agreement and any other disputes or claims relating to or arising out of the Plan and this Agreement shall be fully, finally and exclusively resolved by binding arbitration conducted in San Diego, California, by either (i) the American Arbitration Association in accordance with its rules and procedures, or (ii) by any party mutually agreed upon by the Committee and the claimant. By accepting an Award, the Awardee and the Company waive their respective rights to have any disputes or claims tried by a judge or jury.

15. RIGHTS AS A SHAREHOLDER. Nothing in the Plan or in this Agreement shall confer upon the Awardee any rights as a stockholder with respect to any Award Shares prior to the date of the distribution of Award Shares to the Awardee, except as specified herein.

16. LAWS APPLICABLE TO CONSTRUCTION. This Agreement shall be deemed to be a contract under the laws of the State of Delaware and for all purposes shall be construed and enforced in accordance with the internal laws of the State of Delaware without regard to the principles of conflicts of law.

17. RECEIPT OF PROSPECTUS. The Awardee hereby acknowledges that he or she has received a copy of the prospectus relating to the Award and the shares covered thereby and the Plan.

18. GENERAL. The Company shall at all times during the term of this Award reserve and keep available such numbers of shares of Common Stock as will be sufficient to satisfy the requirements of this Award, shall pay all fees and expenses necessarily incurred by the Company in connection therewith, and will from time to time use its best efforts to comply with all laws and regulations which, in the opinion of counsel for the Company, shall be applicable thereto.

19. ANNUAL REPORTS. The Company shall during the term of this Award provide to Awardee an annual report regarding the Company.

20. NOTICES. All notices or other communications under this Agreement shall be given in writing and shall be deemed duly given and received on the third full business day following the day of the mailing thereof by registered or certified mail, return receipt requested, or when delivered personally as follows:

(a) If to the Company, at its principal executive offices at the time of the giving of such notice, or at such other place as the Company shall have designated by notice as herein provided to each of the Awardees;

(b) If to Awardee, at the address as it appears below Awardee's signature to this Agreement, or at such other place as Awardee shall have designated by notice as herein provided to the Company; and

(c) If to any other holder, at such holder's last address appearing in the Company's records.

It shall be the responsibility of the Awardee to notify the Company of any changes in address.

21. MISCELLANEOUS.

(a) This writing constitutes the entire agreement of the parties with respect to the subject matter hereof and may not be modified or amended except by a written agreement signed by Awardee and the Company, other than as provided in paragraph (g) below. Anything in this Agreement to the contrary notwithstanding, any modification or amendment of this Agreement by a written agreement signed by, or binding upon, Awardee shall be valid and binding upon any and all persons or entities who may, at any time, have or claim any rights under or pursuant to this Agreement (including all Awardees hereunder) in respect of the Award granted to the Awardee.

(b) No waiver of any breach or default hereunder shall be considered valid unless in writing and no such waiver shall be deemed a waiver of any subsequent breach or default of the same or similar nature. Anything in this Agreement to the contrary notwithstanding, any waiver, consent or other instrument under or pursuant to this Agreement signed by, or binding upon, Awardee shall be valid and binding upon any and all persons or entities (other than the Company) who may, at any time, have or claim any rights under or pursuant to this Agreement (including all Awardees hereunder) in respect of the Award originally granted to Awardee.

(c) Except as otherwise expressly provided herein, this Agreement shall be binding upon and inure to the benefit of the Company, its successors and assigns, and Awardee and his heirs, personal representatives, successors and assigns; *provided, however*, that nothing contained herein shall be construed as granting Awardee the right to transfer any of his Award except in accordance with this Agreement.

(d) If any provision of this Agreement shall be invalid or unenforceable, such invalidity or unenforceability shall attach only to such provision and shall not in any manner affect or render invalid or unenforceable any other severable provision of this Agreement, and this Agreement shall be carried out as if any such invalid or unenforceable provision were not contained herein.

(e) The section headings contained herein are for the purposes of convenience only and are not intended to define or limit the contents of said sections.

(f) Each party hereto shall cooperate and shall take such further action and shall execute and deliver such further documents as may be reasonably requested by any other party in order to carry out the provisions and purposes of this Agreement.

(g) This Agreement is intended to comply with Code Section 409A and shall be administered in a manner consistent with Code Section 409A. Should any provision of this Agreement be found not to comply with the provisions of Code Section 409A, it shall be modified and given effect, in the sole discretion of the Committee and without requiring Awardee's consent (notwithstanding the provisions of Section 13 or paragraph (a) above), in such manner as the Committee determines to be necessary or appropriate to comply with, or to effectuate an exemption from, Code Section 409A.

(h) Whenever the pronouns "*he*" or "*his*" are used herein they shall also be deemed to mean "*she*" or "*hers*" or "*it*" or "*its*" whenever applicable. Words in the singular shall be read and construed as though in the plural and words in the plural shall be read and construed as though in the singular in all cases where they would so apply.

(i) This Agreement may be executed in counterparts, all of which taken together shall be deemed one original.

IN WITNESS WHEREOF, the Company has caused this Award to be granted on its behalf by its President or one of its Vice Presidents and Awardee has hereunto set his hand on the day and year first above written.
